Response to Arguments

Applicant's arguments with respect to claims 8-10 are have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 8-9 are rejected under 35 U.S.C. 102(e) as being anticipated by Mallory et al. (2002/0006136).

1. Regarding claims 8-9, Mallory discloses nodes in a network for receiving a first message identifying a first routing protocol (claim 1, col. 2, 3rd paragraph, “each second type station, upon receiving a first protocol frame...”), inherently receiving a second message of a second protocol, and selecting a first or second protocol to use dependent upon the expiration of a timer (claim 1, col. 2, 5th paragraph, “each second type station, upon the expiration of the first protocol detect timer...”) for use in the node (claim 1, col. 2, 6th paragraph, 3rd subparagraph, “wherein when sending a first protocol...”).

Allowable Subject Matter

2. Claims 1-7 and 11-20 are allowed.

Art Unit: 2666

3. Claim 10 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
